

Osprey Approach: Risk Management

This help guide was last updated on
Aug 5th, 2024

The latest version is always online at
<https://support.ospreyapproach.com/?p=43595>

[Click here for a printer-friendly version](#)

Designed to be imported as extra tasks into existing work types. Covers ID Formalities and Client Due Diligence. Record client ID and complete your client and matter risk assessments as well as source of funds assessment within Osprey. Covers Individual clients as well as companies and beneficial owners. Client risk assessments are recorded at client level and will be available on any matter for that client ensuring that previous risk assessments are available. You can indicate if a client is a PEP and key dates allow you to ensure that ID expiry dates are never missed. A selection or reports allow you MLRO and COLP to ensure that expired ID and high-risk matters are monitored effectively.

LEVEL OF DUE DILIGENCE

Please select the most appropriate level of Due Diligence

Low Risk – simplified due diligence measures can be applied taking account of the risk factors in regulation 37 of the MLR 2017, for example, when the client is a bank, publicly listed company or public body

Standard Risk – When the client is a private company or an individual

High Risk – Enhanced due diligence (EDD) measures will need to be applied in certain circumstances, for example when the client is in a high-risk third country, is a politically exposed person (PEP) or the transaction is complex or unusually large and has no apparent economic or legal purpose
