Reports (New)

This section contains any reports you have written in the Report Writer, or that have been written for you by Pracctice Ltd. The group names are customisable.

We also have a library of reports which may be useful, a full list of these is [here](#).

Custom reports

This section contains legacy reports which were written for individual customers prior to the introduction of the Report Writer, so it is likely that any reports located in this section will not function correctly, due to setup differences from one customer site to another.
