

Osprey Approach: Balance the Aged Debtors to the Trial Balance Debtors

This help guide was last updated on

The Trial Balance Debtors figure is the total debt owed to you by your clients. These debts can be either due (billed) or not due (unbilled disbursements).

The Trial Balance Debtors figure can be confirmed by running the Ledger/Matter Balance Listing report, and adding together the office and disbursements totals.

Aged debtors should equal the **office** total of the ledger balance report, other than where provisional bills and counsels fees posting types have been used.

Compare at current date

To run and compare the reports as at the current time:

- Run the Trial Balance Report - Reports > Financial Management > Trial Balance
- Run the Aged Debtors Report - Reports > Client Financial > Aged Debtors and ensure that Include Credit Bals? is ticked.

Reports > Client Financial > Aged Debtors

The Aged Debtors report lists all Client Ledgers that have a balance in the Office column. On this report the Disbursement column is **not** included in the figure as these are not due until they are **billed**, and credit office balances are not included by default as they are not debts.

If you use the following posting types, you will need to allow for these, since the Aged Debtors report will not include them:

- Legal Aid Counsel Fees
- Provisional Bills

Within the report there is a "MisAl" column, this displays 'Yes' when there is a problem with the allocations on the matter, meaning that the sum of the ageing columns does not match the Balance on the ledger. The ledger should be cleared and reallocated to rectify this.

All of the above postings have their own Journal figure on the Trial Balance report.

The figures on the Aged Debtors report can be corroborated by comparing the total Balance column:

Balance	Bill Date	0 - 30 days	31 - 60 days	61 - 90 days	91+ days	Credit Balance	MisAI
50.00	01/07/2019	0.00	0.00	0.00	50.00	0.00

If these two columns do not match, check your Trial Balance report for PRDEBTOR or CFDEBTOR journal rows. In the example below, because there are provisional bills (not yet delivered) and counsels fees (not yet paid) posted on the ledgers, the total of the three journals should be used to match to the Ledger Balance report office+disbursements figure:

The Aged Debtors report lists all Client Ledgers that have a balance in the Office column. On this report the Disbursement column is **not** included in the figure as these are not due until they are **billed**, and credit

office balances are not included by default as they are not debts.

If you use the following posting types, you will need to allow for these, since the Aged Debtors report will not include them:

- Legal Aid Counsel Fees
- Provisional Bills

All of the above postings have their own Journal figure on the Trial Balance report.

The figures on the Aged Debtors report can be corroborated by comparing the total Balance column:
