When you are owed money by your clients, it is easy to generate automatic letters to your clients to chase them for payment. See our guide here for how to set up and use the letters.

This is available from Reports > Client Financial > Aged Debtors > Run Aged Debtor Letters. A letter is generated in Word for each client/matter meeting the criteria entered, and will display the balances owing as per the Aged Debtors report. The letter templates are initially set up in the Supervisor area (Case Management Setup > Standard Letters > Batch Debtor Letters). A range of Merge fields are available for inclusion on the templates in a similar manner to the Case Management Standard Letters.
