## This guide will take you through the process of billing a client

When billing a client, it is recommended that all disbursements and time recordings you wish to include are already posted onto the Matter. If there are time postings not yet posted, users can defer time ticking, and allocate the time at a later point.

#### To Post a Bill

On the relevant client ledger, select 'Bill' from the Posting drop-down list and click 'Post'.

CLIENT LEDGER V

The Posting window will open

BILL - POSTING DETAILS

➡ Next							

The 'Fee Earner' field defaults to the matter owner, and the date to Today's date, but both fields can be amended.

Enter a short posting description within the Detail box.

Now enter the appropriate Fee Earner costs in the 'Fee Earner Costs' field should any be incurred.

Enter the net total (excluding VAT) of any vatable disbursements and the total of non-vatable disbursements incurred in the respective Vatable and Agency disbursement boxes.

Use the 'Calculate VAT' button to automatically calculate VAT, or users can manually enter a value.

If a custom value has been entered within the VAT box, a further confirmation window will appear.

'Total Invoice' automatically shows the total invoice value once the fields above have been completed. This cannot be changed manually. If 'Bill Numbering' is switched on, the Reference field will contain the text '#NEXT#'. Leave this in place if you wish Osprey to automatically number the bill for you.

Alternatively, you can overtype this field if you wish to enter the bill number manually.

The selection boxes will allow you to denote:

Other EC Member: Select if the client is based outside the UK

**Spool For Printing:** If you wish to print a physical copy of the bill, dependent on a bill template having been created.

**Defer Time Ticking:** If the time recordings are not up to date, you can defer time ticking until all time recordings are complete. Leaving unticked allows the user to allocate time now.

**Show Apportion Costs:** will display a further screen within the bill posting where you can split your bill costs between a number of fee earners.

Please note that this option is dependent on setup. If required, a 'Costs Apportionment' switch needs to be enabled by a system supervisor.

Once the posting details are complete, click 'Next'.

#### VAT Check

VAT CHECK		3
Fee Earner Costs:	950.00	
Vatable Disbs:	150.00	
Disbs (Agency):	20.00	
Vat:	0.00	
Total Invoice:	1,120.00	
Non Vatable Amount of Costs:	950	
←Back →I	Next	

If you have manually entered a VAT amount, a VAT check will appear, asking to confirm the full Non-Vatable value of costs. This will pre-populate with the Fee Earner Cost value but can be amended if required.

#### Allocate Disbursements

The disbursement allocation screen will now appear.

1	ALLOCATE DISBURSEMENTS BILLED								
	Billed:	-170.00

	01/06/2023 Posting		123	100.00	-100.00	$\odot$			
	<b>d</b> Back	➡ Next							

Manually allocate the disbursements by clicking on Icon within the Alloc'd column or select "Auto Allocate" from the allocation drop-list list.

Click "Go" and the disbursements will be allocated.

#### **Time Allocation**

The 'Time Allocation' screen will appear provided 'Defer Time Ticking' was not ticked on the first screen.

You can choose a selection type to assist you with selecting the time to tick against the bill.

Alternatively, you can simply tick the boxes alongside the relevant time entries to bill.

Use the 'Calculate Ticked Value' button to ensure that 'Value Ticked' matches the 'Bill Costs'. You can choose to defer this action by selecting "Defer Ticking".

We are going to allocate all of the time by clicking 'Tick All'.

If you've not ticked 'Show Apportion Costs' on the first screen, you will have the option to click 'Post'.

Click 'Next'.

#### **Cost Apportion**

If selected, the Costs Apportion screen is then displayed. Select the first fee earner from the list that you want to apportion costs to.

COSTS APPORTION								
Attributable Costs: 98	50.00							
Vat & Disbs: 3	54.00							
Fee Earner: F	iona FeeEarner	~

6	Allocate To Fee Ear	ner						
FEE EARNER ID	FEE EARNER		AMOUNT					
FFF	Fiona FeeEarner		475.00	Ī				
<b>—</b> Back								

You will have the option to allocate the amount by 'Value' or 'Percentage'.

For example, if your bill is for £950, which is attributable to 2 fee earners equally, you could select
'Percentage' and enter 50 in the 'Allocate Amount' box.

To achieve the same result you could select 'Value' and enter 475 in the 'Allocate Amount' box.

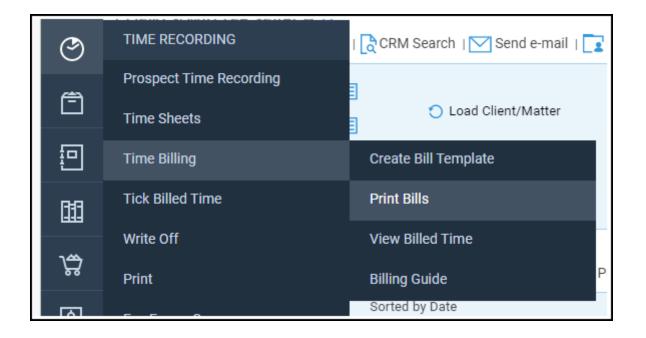

Click 'Allocate to Fee Earner' when you have entered the amount, and then repeat for any additional fee earners until the 'Amount Remaining' states 0.

Now let's click 'Post'.

### Printing the Bill

To print the bill, click on the 'Time Recording' tab, then select 'Time Billing'.

Next, select on 'Print Bills'.

Any pending bills will displayed. There are some filtering options at the top of the page.

The selected bills will open in Word and the document can be printed.

If the user wants to edit the bill and save the changes into Osprey, they will need to close the document and check out the document from the matter history.
