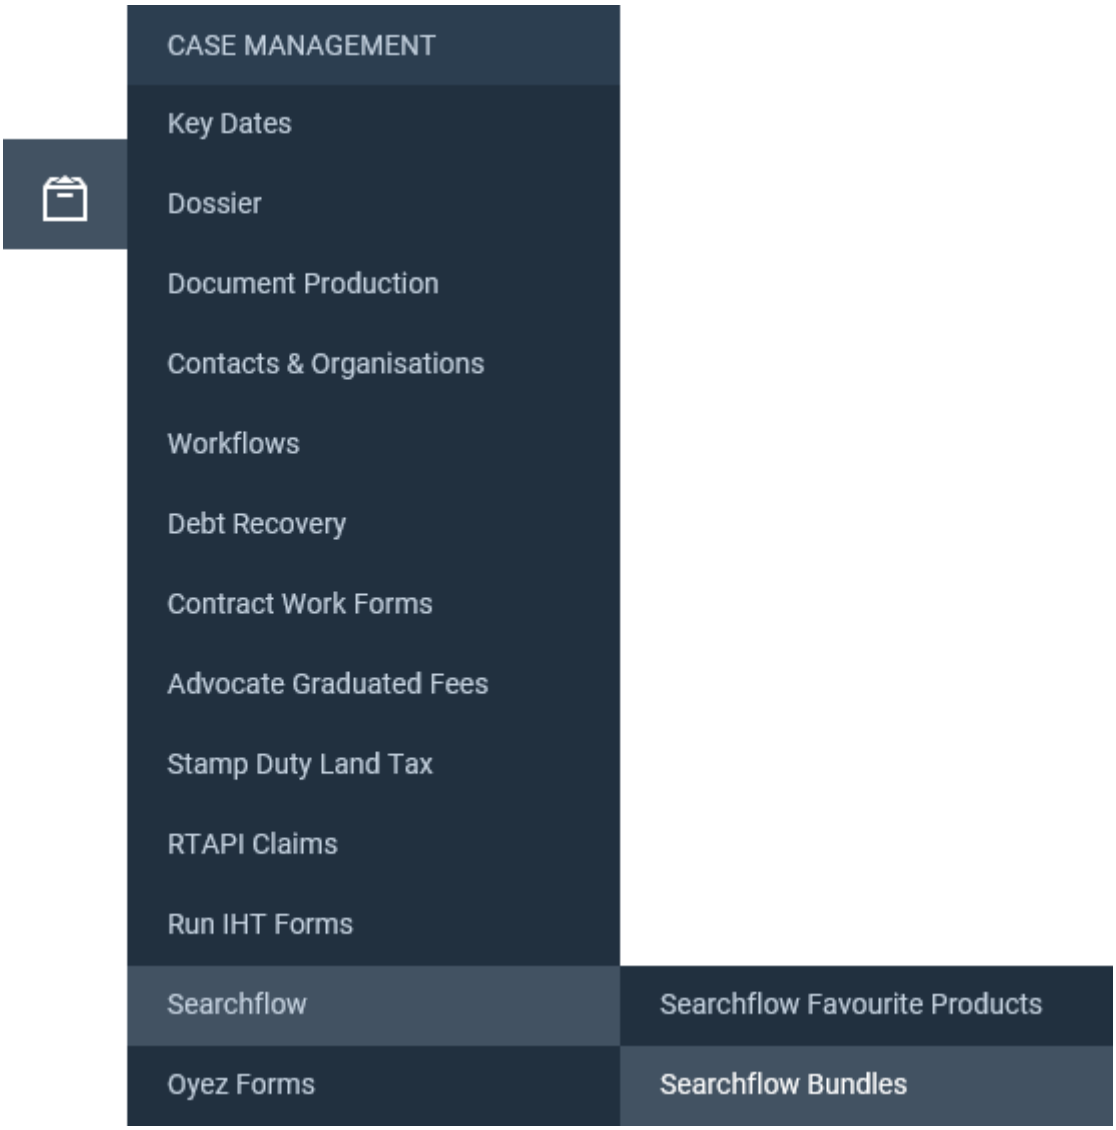
Osprey™ Approach

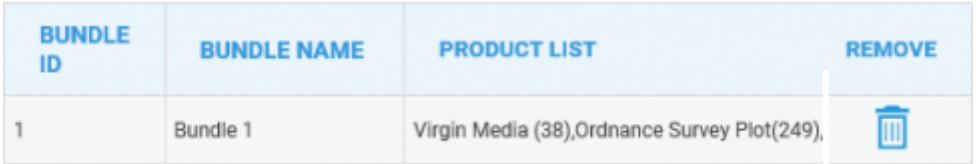
You can create bundles of searches to save time and make it easier to perform the same group of searches on any other matters in the future.

# Creating a Searchflow Bundle

Select Case Management > SearchFlow > SearchFlow Bundles.



You will see a list of all currently saved SearchFlow bundles which you are able to delete using the remove icon.



To add a new bundle, simply fill in the fields under the Add New Bundle heading.

Enter the Bundle name and the Bundle ID – if this bundle is part of an arrangement with SearchFlow with discounted prices, you will need to request the bundle ID from Searchflow

You can then select the Search Type, Residential, Commercial or both.
Both are searches which apply to both commercial and residential, not a combination of the two lists.

Tick Select against the desired searches.

1 2 3 4 5 6 7 8 9

| PRODUCT ID | PRODUCT NAME | SUPPLIER NAME | SELECT |
|---|---|---|---|
| 36 | BT Openreach Wayleave Searc | British Telecom | ☐ |
| 38 | Virgin Media | NTL - Home Counties | ☐ |
| 40 | Chancel Repairs Full Search | SearchFlow Limited | ☐ |
| 42 | CAA | Civil Aviation Authority | ☐ |

Click Save at the bottom of the page.

Your bundle will now be available to select when submitting a New Search
