This guide will take you through the Credit Limit Warnings report

This report shows clients who have **at some point** gone over their credit limit, even if this has since been rectified.

Credit Limits for WIP (includes work in progress and disbursements due to the legal aid requirement), debtors (office) and disbursements can be entered either for the overall client in client details or for each matter in matter details.

You can also specify within supervisor at what percentage of the limit you will be warned. This can be found within System Setup, System Settings, and the default is 75%.
