This guide will take you through managing your nominal ledgers

From time to time, it may be necessary to add a new nominal ledger, for example if you take out a new loan or start using a new supplier. You may also want to archive nominal ledgers if they are no longer being used. It is worth checking your full list of nominal ledgers prior to making any decisions.

Export a list of nominal ledgers

It is best to ensure you are familiar with your Nominal numbering structure first of all, as when adding a new nominal the system will ask you for a nominal number. You can access a list of all the nominal codes in one of two ways:

- Accounts > Nominal Ledgers > Nominal Ledgers > Account List

Nominal Ledgers > Nominal Ledger : NL101 - Entertainment

ACCOUNT SEARCH

[Account List](#)

Code: [Go](#)

SAC:

Branch:

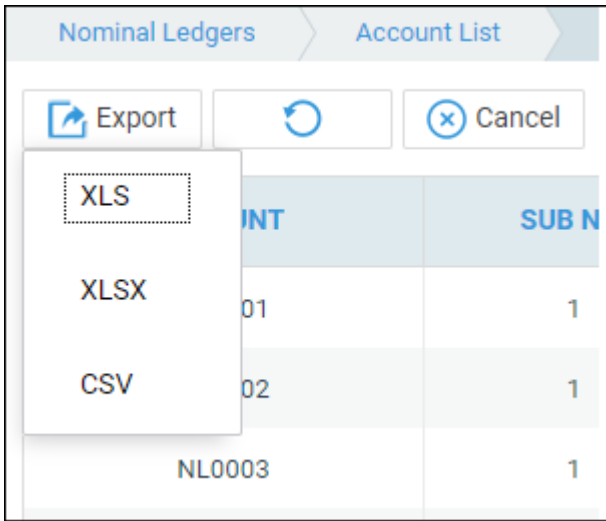

Dept:

Description: [Search](#)

Nominal Type:

Currency:

You can then simply scroll through all the accounts to decide on the next number to use, or you can use the Export option to export the list to Excel:

- You can use the Nominal Codes report available from Reports > Miscellaneous.

Nominal ledgers in Osprey can be grouped into sub analysis codes under the same nominal e.g.

NL101 is Utilities. We have added two Sub Analysis Codes to this, one for the gas supplier and another for electricity. These will then show as follows:

NL101/1 - British Gas

NL101/2 - Electricity

Add a new nominal code

To add a brand new nominal code:

Accounts > Nominal Ledgers > Nominal Header on the new screen click New. Fill in the details as below and click Save.

Nominal Ledgers > Nominals > Nominal Header > ... > Add Nominal

Save Cancel

Account Type: Nominal This cannot be changed

Account Code: NL101 Enter the new nominal code to use here

Account Description: Utilities Enter a description for the nominal here

CURRENCY DETAILS

Country: United Kingdom Set as country default Select the country for use with this nominal

Currency: Pound Sterling Set as currency default Select the currency for use with this nominal (each nominal can only be used for one currency)

NOMINAL DETAILS

Nominal Type: Balance Sheet Expenditure Choose the nominal type for this nominal. Speak to your accountant if unsure.

OTHER DETAILS

In use: Leave ticked, unless you are editing a nominal that is out of use

The SAC screen will then appear. Fill in the details as below and click Save:

Nominal Ledgers > Nominals > Nominal SAC

Save Cancel

Account Type: N Cannot be changed

Account Code: NL101 Cannot be changed

Sub-Account No: 1 Cannot be changed

Account Description: British Gas Enter a description for the sub analysis code here. Please leave the same as the header record

Exclude from VAT?: Untick this if you want to be able to post VAT

Nominal Type: Balance Sheet Expenditure Cannot be changed

In use: Leave ticked, unless you are editing a nominal that is out of use

The system will now display the screen below. If you need to add any more SACs to this nominal you can do so by clicking the New Nominal SAC button.

Nominal Ledgers > Nominals > Nominal SAC				
New Nominal SAC				
ACCOUNT CODE	SUB NO	ACCOUNT DESCRIPTION	EXCLUDE FROM VAT	NOMINAL TYPE
NL101	1	British Gas	False	BSE

Add a new SAC (sub analysis code) to an existing nominal

If you already have a nominal e.g. for Drawings, but a new partner needs to be added, you can add a new nominal SAC to an existing nominal code.

Navigate to the Nominal Ledgers page and select the nominal to which you wish to add a new SAC.

Accounts > Nominal Ledgers > > Nominal SAC on the new screen click Add.

The SAC screen will then appear. Fill in the details as below and click Save:

Nominal Ledgers > Nominals > Nominal SAC	
<input type="button" value="Save"/> <input type="button" value="Cancel"/>	
Account Type:	N Cannot be changed
Account Code:	NL101 Cannot be changed
Sub-Account No:	1 Cannot be changed
Account Description:	British Gas Enter a description for the sub analysis code here. Leave the same as the header record.
Exclude from VAT?:	<input type="checkbox"/> Untick this if you want to be able to post VAT. Cannot be changed
Nominal Type:	Balance Sheet Expenditure Cannot be changed
In use:	<input checked="" type="checkbox"/> Leave ticked, unless you are editing a nominal that is out of use

Edit a nominal ledger

To edit a nominal ledger navigate to Accounts > Nominal Ledgers > Nominal Header/Nominal SAC (depending on whether you wish to edit the header or the SAC). You can then right click and Edit. Once postings with VAT have been made on the ledger (even if subsequently undone) you will be unable to Exclude from VAT. You will also be unable to change the nominal type of any nominal once it has been

posted on.

Archiving a nominal ledger

From time to time you may wish to take a nominal ledger out of use, if it is not being used any longer. You should first ensure that there are no balances or postings on the nominal ledger in the current financial year.

Navigate to Accounts > Nominal Ledgers > Nominal Header.

Click Edit alongside the nominal code you wish to take out of use (or right click and select Edit)

Untick the In Use box, noting that archiving will affect all SACs, and click Save.
