If your bill contains disbursements, ignore these from the calculation. The system is asking for the non vatable amount of **costs** only. This bill is out of scope, with disbursements, so we have added the costs amount to the Non Vatable Amount of Costs box. This bill will not appear on your VAT Return.

We can now see that although there are 5 bills on our example ledger, only 3 of them appear on the VAT Return, because for bills 204 and 208, we opted to select 100% of the costs as non vatable:
