Storing passwords in your browser is not recommended, as it poses a security risk. Auto-complete entries can cause accidental incorrect input into fields in web forms.

Turn off saved passwords

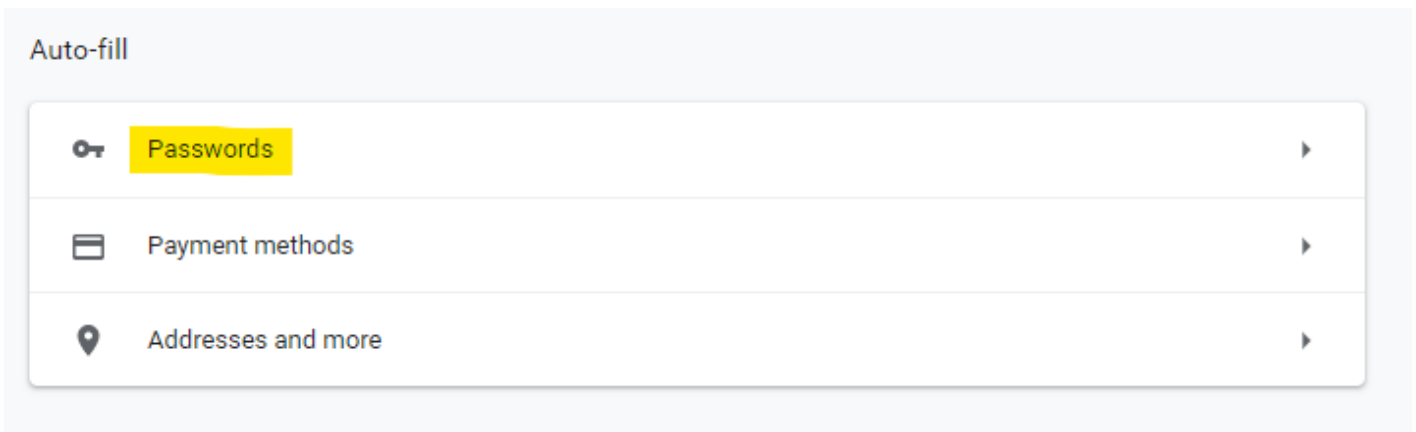

Open Google Chrome, select the menu button in the top right hand corner, and select Settings:

On the left hand side, select the Auto-fill menu:

In the main screen, select the Passwords option:

Ensure that Offer to save passwords is turned off:

Offer to save passwords 

Auto Sign-in 
Automatically sign in to websites using stored credentials. If disabled, you will be asked for confirmation every time before signing in to a website.

Check passwords 
Keep your passwords safe from data breaches and other security issues

View and manage saved passwords in your [Google Account](#)

Saved Passwords

Saved passwords will appear here

Never Saved

Sites which never save passwords will appear here

Remove stored passwords

Select the Privacy and Security menu on the left hand side:

Choose Clear Browsing Data:

Privacy and security

- Clear browsing data**
Clear history, cookies, cache and more
- Cookies and other site data
Third-party cookies are blocked in Incognito mode
- Security
Safe Browsing (protection from dangerous sites) and other security settings
- Site settings
Controls what information sites can use and show (location, camera, pop-ups and more)

Select the Advanced tab. Ensure that Passwords and other sign-in data, and Auto-fill form data are ticked, and that the Time range at the top is set to All time. Click Clear data:
