It is possible to reprint any CRM6 forms that have already been run via Contract Work Reports in the reports area. Please note that you must have the [Osprey Gateway >](#) installed to perform this action.

Re-Printing may be required if original submissions are rejected and changes need to be made to the original data, the original saved form is lost, or, on odd occasions, excel may error, therefore you can simply reprint from the supervisor menu rather than having to set all of the class completions back to none and rerun the batch.

To reprint, navigate to:

Supervisor > Reprint CRM611 Spreadsheet

You will see that you have the option to select a date range for any batches that have already been run, simply add in the relevant date range to find the correct batch to re-print.

Click the print icon to the right-hand side to open the spreadsheet.

Start Date: 12/07/2019

If you need to resubmit your online submission, select the summary tab where you have the option to 'Save Online Submission'. As with running via the contract reports area you will need to save the submission locally in readiness to upload to the LAA Portal website.

NB: The submissions date needs to be entered into the CDS6 Summary page, without which, you cannot generate the online submission.
