If you would like to run either a detailed billing guide, or a summary of the billing guide, follow the instructions here to assist you in producing the relevant reports.

The billing guide should be printed as the breakdown for the bill before it is posted. It will provide you with details of all unbilled time and unbilled disbursements for the client and matter selected.

To run a billing guide, go to the Time Recording area in the side menu and then select Time Billing. Now click on Billing Guide.

The billing guide filters for the currently selected client will open. You may select an alternative client using the available search options.

A screenshot of a filter form for the billing guide. The form is light blue and contains the following fields: 'Posted Balance: 660.50', 'Marked Up Balance: 660.50', a checkbox for 'Fee Earner', a checkbox for 'Remuneration Type', 'Date Filters: From: 26/04/2018 To: 16/07/2019', 'Grouping: No Grouping', and 'Report: Posted Values Only Summary'. Each date field has a calendar icon, and the dropdown menus have downward-pointing arrows.

You will be able to see both the posted and marked up value should this be applicable. You may also filter by Fee Earner and remuneration type if you wish.

Tick the Fee Earner or Rem Type boxes to open the relevant areas for further filtering.

The Fee Earner check box only needs to be selected if more than one Fee Earner has recorded time on a matter and you are just running a billing guide for one or more specified Fee Earner. If printing everything, this can be left unchecked.

Similarly, the 'Remuneration Type' check box can be left unchecked to view all. If you wish you may select the ones you wish to view.

The date filter can also be used should you wish to bring through information between certain dates. The date range will show the first and last time posting on the currently selected client's time ledger.

The guide can be grouped by Fee Earner

Posted values is the default selected report type, however if there is marked up time present, you have the option to either report on marked up values only or to report on both posted and marked up values.

You can also bring through a summary, detailed report or you can combine the two.

Select Print.
