

Osprey Approach: Set up Private Time Recording (Browser)

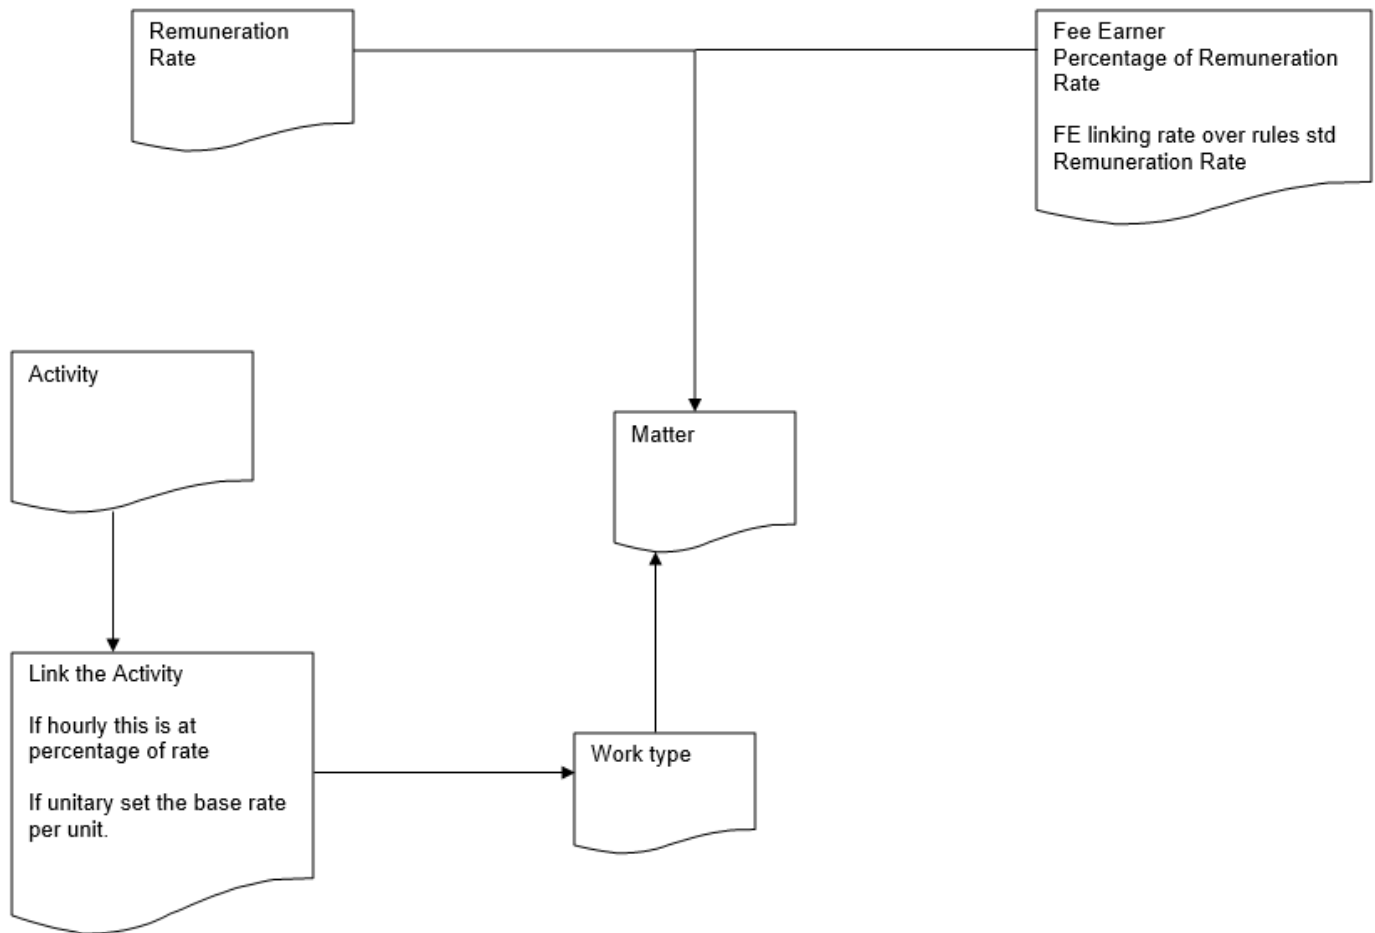

This help guide was last updated on
Feb 8th, 2024

The latest version is always online at
<https://support.ospreyapproach.com/?p=17570>

This guide explains how to set up Osprey's time recording feature if you have never used it before. Legal Aid time recording is set up by default, but if you are intending to use time recording on your private matters, you will need to set it up first.

Below is an diagram of how Osprey calculates the rates for the matter - Fee earners are linked to a remuneration rate (e.g. £200/per hour), and the activity is linked to the worktype~ (e.g. travelling is calculated 50% of the fee earner's hourly rate). Using the above rates, if the fee earner records 1 unit of time for travelling, it will be 1 unit of ($\text{£}200/2$) = £10.

Choosing your Style of Time Recording

Firstly, we will need to decide how to time record. Osprey allows three different methods of recording your time entries.

- Navigate to Supervisor > System Setup > System Settings.
- Click Edit.
- Scroll down if required to the settings for Time Units and Time Type:

Time Units:

Actual time

Time Type

Integrated

The Time Units setting gives you three options:

- **Actual Time** – Use this if you want your fee earners to record their time as the actual number of hours/minutes that they spent on the work.
- **6 Minute Units** – Use this if you want to record time in 6 minute units e.g. fee earner enters 1 for 6 minutes, 2 for 12 minutes etc.
- **Round up to 6 mins** – Use this if you want to record in actual time, but have the system automatically round the value up to the nearest 6 minutes of time. E.g. fee earner enters 5 minutes - system records 6 minutes, fee earner enters 13 minutes - system records 18 minutes.

DESCRIPTION	UNITS	MINS	RATE	VALUE
6 minute units	9	54.00	70.00	63.00
Actual time	0	54.00	70.00	63.00
Round up to 6 mins - 50 mins posted	0	54.00	70.00	63.00

The Time Type option gives you 2 options:

- **Integrated** – Use this option if you wish to incorporate your time when billing your clients. When a bill is posted to the client ledger, the system will ask you which time entries you want to bill. The time will then be removed from the list of WIP and placed into the Billed Time area of Osprey.
- **Non-Integrated** – Use this option if you do not wish to incorporate your time when billing your clients. Any time recorded will then need to be written off prior to archiving the matter.

Add your Activity Codes

If you need to add additional activity codes, the link below will assist.

<https://support.ospreyapproach.com/guides/adding-activity-codes/>

Adding Work Types

Activity codes are linked to Work Types, allowing a different set of activities to be available for different areas of law. If you require a new Work Type to be created, please view the below guide.

<https://support.ospreyapproach.com/guides/managing-your-worktypes/>

Linking Activity Codes to Work Types

- Navigate to Supervisor > Code Setup > Work Types.
- Alongside the Work Type you wish to link Activity Codes to, click the Link Activity Code button:

Supervisor Code Setup Work Types									
New Export Refresh Search...									
W/T	WORK DESCRIPTION	IN USE	DEFAULT WORKFLOW	PUBLISHED DESCRIPTION	IS PUBLISHED	EDIT	ACTIVITY CODE	SUB CATEGORY	
WILLS	Wills		0	Wills					

- Locate the Activity Code you wish to link and click the Activity ID to link it:

Supervisor	Code Setup	Work Type	Activity Codes Available
Export Refresh				
ACTIVITY CODE ↑		DESCRIPTION		
EMAIL_IN		Email received from client.		

Choose a Rate Type. This can be Hourly or Unitary. If you chose to record time in 6 Minute Units earlier, time will still be recorded in units even if you select Hourly here. Choose:

- Hourly – if you want all fee earners to charge the same set percentage of their Hourly Rate for this activity.
- Unitary – if you want all fee earners to charge the same amount for this activity.

e.g. 1 - Choosing 100 in the Percentage/Unit Rate box, and Hourly in the Rate Type means that each fee earner will charge 100% of their hourly rate per hour for this activity.

e.g. 2 - Choosing 15 in the Percentage/Unit Rate box, and Unitary in the Rate Type means that every fee earner will charge £15 per unit for this activity.

e.g. 3 – Choosing 50 in the Percentage/Unit Rate box, and Hourly in the Rate Type means that each fee earner will charge 50% of their hourly rate per hour for this activity – sometimes used for Letters In.

minutes

Click Save when you are done. Repeat for each Activity Code you want to link to the work type.

Adding Additional Remuneration Types

The below link will show you how to add Remuneration types if required.

<https://support.ospreyapproach.com/guides/adding-remuneration-types/>

Linking and Updating Fee Earners' Charging Rates (Remuneration Types)

If the majority of your fee earners charge £150 per hour for this Remuneration Type, but there are one or two who have a different hourly rate, we can link these fee earners to charge a different rate to the £150 default.

Navigate to Supervisor > Code Setup > Fee Earners.

Click the Link Rem Type button alongside the Fee Earner you would like to set a different charging rate for.

Supervisor Code Setup Fee Earners						
<div>NewExportRefresh</div> <div>broom</div>						
F/E	FEE EARNER DESCRIPTION	SUP F/E	FEE EARNER STATUS	IN USE	LINK REM. TYP	EDIT LINK
MB	Mitzi Brown		Supervisor			

Click the Remuneration ID that you want to set the new fee earner rate for:

Supervisor	Code Setup	Fee Earner	Remuneration Types Available
------------	------------	------------	------	------------------------------

 Export
 

REMUNERATION TYPE	DESCRIPTION
HIGH	Higher Remuneration
LOW	Lower Remuneration
NOTIME	No Charge
STANDARD	Standard Remuneration

And now enter the rate that this fee earner should charge when working on matters set for this remuneration type:

Supervisor	Code Setup	Fee Earners	STANDARD
------------	------------	-------------	------	----------
