This guide will take you through the custom autoposting function

Osprey has a number of automatic posting options which you can use to speed up your input. Given a CSV file containing all of the postings you need to make, in the correct format, Osprey can post these for you. Auto posting is available for:

- Cost Transfers
- Client Bank Receipts
- Client Bank Payments
- Matter Addition

Prerequisites

To use the Cost Transfer auto posting you must be running under the Standard style of VAT. This is because Cash Accounting firms need to fill in the VAT Cash Accounting question when posting a cost transfer to correctly reflect the VAT being recovered.

All files for uploading must be saved as CSV (Comma Separated Values) files. This can be done using the Save As option within Excel, and choosing Comma Delimited:

| Save As | | | | × |
|---|--|--|---------------------|------|
| ← → × ↑ | > This PC > OS (C:) > My Documents | ~ Ö | Search My Documents | Q. |
| Organise 👻 Ne | ew folder | | 811 | • 🕐 |
| This PC 3D Objects Desktop Documents Downloads Music Pictures Videos | ↑ Name ^ | Date modified No items match your search. | Туре | Size |
| 🏥 OS (C:) | v < | | | > |
| File name: | Client Payments | | | ~ |
| Save as type: Authors: A Hide Folders | CSV (Comma delimited) Excel Workbook Excel Macro-Enabled Workbook Excel Binary Workbook Excel 97-2003 Workbook CSV UTF-8 (Comma delimited) XML Data | | | ~ |
| | Single File Web Page Web Page Excel Template Excel 97-2003 Template Text (Tab delimited) Unicode Text XML Spreadsheet 2003 Microsoft Excel 5.0/95 Workbook CSV (Comma delimited) Formatted Text (Space delimited) | | | |

All Banks that you wish to use for auto posting must have their bank account numbers set:

| Supervisor | Financial Setup Banks Edit Bank Details |
|-------------------------|---|
| Save | Cancel |
| Account Type: | Bank |
| Account Code: | 1189 |
| Account Description: | HSBC - Client A/C |
| ADDRESS DETAIL | S |
| Bank/Company Name: | HSBC - Cliient A/C |
| House/Street: | |

| Last Cheque Number: | 000000 |
| Cheque Template: | None |
| Bank Account Number: | 10061919 |
| Bank Sort Code: | 16-21-20 |

Cost Transfer details

The auto posting will only allow posting from <u>Client to Office</u>, and not from Office to Client, nor from Client to Disbursements.

N.B. The Cost Transfer auto posting should ONLY be used if you are Standard style of VAT. This is because Cash Accounting firms need to fill in the VAT Cash Accounting question when posting a cost transfer to correctly reflect the VAT being recovered.

Columns:

Client – should be the client number of the client you wish to post to.

Matter – should be the matter number of the client/matter you wish to post to.

Posting Date – the date of the cost transfer.

<u>Client Bank / Office Bank</u> – these must be the bank account **numbers** of the client/office bank that the costs are coming from/going to (see Page 2).

Amount – the amount of the transfer, positive figure.

Posting Ref – this will be used for both the posting detail, and the posting reference. In the example above, the reference is placed prior to the detail, so the detail of the posting will be as shown, and the reference will be T24-10.

Client Bank Receipt details

The auto posting posts a client bank receipt into each client/matter's ledger.

Example File:

| F | ile H | lome | Insert Dr | aw Page Layout | Formulas | Data | Review | View I | | | | |
