

Osprey Approach: Write off VAT on bad debts

This help guide was last updated on
Dec 20th, 2022

The latest version is always online at
<https://support.ospreyapproach.com/?p=2733>

If you sell an item or provide a service to a customer but the customer never pays you, you can reclaim the VAT you charged and paid to HMRC. HMRC calls this 'bad debt relief'.

If you sell VATable goods or services to a customer, you will normally have paid the VAT element - the output tax - to HMRC. If the customer doesn't pay you, you can claim bad debt relief and get back the VAT that you paid.

You can reclaim VAT that you paid to HMRC and which you have not received from the customer. The conditions are that:

- the debt is more than six months old, and less than three years six months old
- you have written off the debt in your VAT accounts and transferred it to a separate bad debt account
- the debt has not been sold or handed to a factoring company
- you did not charge more than the normal selling price for the items

If you are entitled to claim bad debt relief, you add the amount of VAT you are reclaiming to the amount of VAT you are reclaiming on your purchases (input tax) and put the total figure in Box 4 of your VAT return.

To work out how much bad debt relief you can claim on a VAT inclusive balance, you need to apply the VAT fraction to the unpaid amount. For standard-rated supplies this is $\frac{7}{47}$.

As the client's ledgers only record outputs for VAT purposes, it is necessary to move the VAT element to a Balance Sheet nominal account.

If a nominal does not already exist for this purpose, you will need to open one. The Nominal will be a balance sheet Expenditure and should not be excluded from VAT.

- Nominal Type - Balance Sheet
- VAT Type - Expenditure
- Exclude from VAT - No

OTHER DETAILS

In use:

1) Write off the costs balance from the client ledger

From the client's ledger card select the posting type write off debit and post. Here we write off the **costs** element only. It is useful to put the customer's account number as part of the posting text for ease of reference. Ensure you select the correct radio button depending on the debt being office or disbursements.

WRITE OFF DEBIT - POSTING DETAILS

Posting Date: 18/10/2021

Currency: GBP

Detail: Write off bill 45 - S00002/1

Amount: 274.49 Office Disbs

Reference: WO

[Next](#)

REF	VAT	OFFICE	DISBS
45	54.90	274.49	0.00
		329.39	0.00
		329.39	0.00

Click to enlarge

Click Next, then ensure you allocate the write off posting against the bill or entry you are writing off.

30/11/2020	Bill	45	329.39	274.49	<input checked="" type="checkbox"/>	<input type="text" value="Optional"/>

[← Back](#) | [Post](#)

Click Post. The costs are now written off.

Sheet number 1 of 1 (2 postings.) Select Sh

DATE	DETAILS	REF	VAT	OFFICE	DISBS
30/11/2020	Bill	45	54.90	274.49	0.00
18/10/2021	Write off bill 45 - S00002/1	WO	0.00	274.49	0.00
TOTALS:				54.90	0.00

2) Transfer the amount of VAT from the client ledger to your Bad Debt nominal

Next, select the posting type 'n - Transfer to nominal', and select 'Post'. Complete the date and posting details and amount to write off the VAT element. Change the radio button to Office, not Disbs.

Enter the Nominal account, remembering to add the /1 for the SAC.

TOTALS:				0.00	0.00
Projected Balances:				0.00	0.00

[Click to enlarge](#)

3) Post the VAT adjustment on the nominal ledger

The last posting (to zero the nominal) is the one which will adjust your VAT input figures, since the transfer to nominal posting beforehand is simply an office amount. Enter the VAT amount to write off in the VAT box, and 0 in the bank/cash amount box.
